Deskripsi Singkat MK	This course explores the integration of literacy principles into English Language Teaching (ELT) curriculum design, emphasizing both theoretical and practical approaches. Through project-based learning, students critically engage with literacy theories and frameworks to develop innovative curriculum models for General English and English for Specific Purposes (ESP). The course encourages reflective and creative thinking as students analyze real-world challenges in literacy development and design solutions that align with modern educational standards and technological advancements. By the end of the course, students will have produced comprehensive, literacy-oriented curriculum projects tailored to diverse educational contexts, demonstrating their ability to address the evolving demands of 21st-century literacy education
