Week-	Final abilities of each learning stage (Sub-PO)	Evaluation		Help Learning, Learning methods, Student Assignments, [Estimated time]		Learning materials [References]	Assesment Weight (%)																														
		Indicator	Criteria & Form	Offline (offline)	Online (online)																																
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)																														

1	Applying Percent and Promil calculations	<ol style="list-style-type: none"> 1.Explaining Prosen & Promil 2.Calculating Procent & Promil in numbers 3.Calculating Procent & Promil in trading 4.Calculating Prosen & Promil in calculating the cost price 	Criteria: maximum value 100	Discussion and Lecture 2 X 50			0%
2	Applying Percent and Promil calculations	<ol style="list-style-type: none"> 1.Explaining Prosen & Promil 2.Calculating Procent & Promil in numbers 3.Calculating Procent & Promil in trading 4.Calculating Prosen & Promil in calculating the cost price 	Criteria: maximum value 100	Discussion and Lecture 2 X 50			0%
3	Apply single interest calculation	<ol style="list-style-type: none"> 1.Explain the meaning of flowers 2.Describe the factors that determine the amount of interest 3.Calculate HB, P, and L 4.Calculating interest using the interest number formula 5.Calculating interest using the 1% formula 6.Average calculation 	Criteria: Maximum value 100	Discussion and Lecture 2 X 50			0%
4	Applying calculations in installment buying and selling	<ol style="list-style-type: none"> 1.Explain the meaning of installment buying and selling 2.Calculate the average payment term 3.Calculating sales risk (profit) 4.Calculating down payment 5.Calculate the installment amount 6.Calculating trade-in goods 	Criteria: Maximum value 100	Discussion and Lecture 2 X 50			0%

5	Apply the calculation of the cost of production	<ol style="list-style-type: none"> 1.Explain the meaning of cost of production 2.Identify the groupings of production costs 3.Calculate the cost of services 4.Calculate the cost of production 	Criteria: Maximum value 100	Discussion and Lecture 2 X 50			0%
6	Applying calculations in goods trading	<ol style="list-style-type: none"> 1.Explain trade in goods 2.Explain the meaning of purchase and sales invoices 3.Calculate weight deductions 4.Calculating Discounts 5.Calculating purchases and sales 	Criteria: Maximum value 100	Discussion and Lecture 2 X 50			0%
7	Applying calculations in goods trading	<ol style="list-style-type: none"> 1.Explain trade in goods 2.Explain the meaning of purchase and sales invoices 3.Calculate weight deductions 4.Calculating Discounts 5.Calculating purchases and sales 	Criteria: Maximum value 100	Discussion and Lecture 2 X 50			0%
8	UTS			2 X 50			0%
9	Applying calculations in fire insurance	<ol style="list-style-type: none"> 1.Explain the meaning of insurance 2.Calculating healthy prices 3.Calculate the amount of damage and compensation 4.Calculate the percentage of damage and compensation 	Criteria: Maximum value 100	Discussion and Lecture 2 X 50			0%
10	Applying calculations in fire insurance	<ol style="list-style-type: none"> 1.Explain the meaning of insurance 2.Calculating healthy prices 3.Calculate the amount of damage and compensation 4.Calculate the percentage of damage and compensation 	Criteria: Maximum value 100	Discussion and Lecture 2 X 50			0%

11	Applying calculations in sea freight insurance	1.Explain the meaning of sea freight insurance 2.Calculate insurance coverage amount 3.Calculating restaurant insurance requirements	Criteria: Maximum value 100	Discussion and Lecture 2 X 50		0%
12	Applying calculations in sea freight insurance	1.Explain the meaning of sea freight insurance 2.Calculate insurance coverage amount 3.Calculating restaurant insurance requirements	Criteria: Maximum value 100	Discussion and Lecture 2 X 50		0%
13	Apply compound interest calculations	1.Explain the meaning of compound interest 2.Explain cash price and final price 3.Calculate the cash price and final price of a loan	Criteria: Maximum value 100	Discussion and Lecture 2 X 50		0%
14	Apply compound interest calculations	1.Explain the meaning of compound interest 2.Explain cash price and final price 3.Calculate the cash price and final price of a loan	Criteria: Maximum value 100	Discussion and Lecture 2 X 50		0%
15	Applying loan calculations using an annuity method	1.Explain the meaning of annuity 2.Describe the annuity formula 3.Calculating installment plans with an annuity	Criteria: Maximum value 100	Discussion and Lecture 2 X 50		0%
16	UAS			2 X 50		0%

Evaluation Percentage Recap: Case Study

Notes

- 1. Learning Outcomes of Study Program Graduates (PLO - Study Program)** are the abilities possessed by each Study Program graduate which are the internalization of attitudes, mastery of knowledge and skills according to the level of their study program obtained through the learning process.
- 2. The PLO imposed on courses** are several learning outcomes of study program graduates (CPL-Study Program) which are used for the formation/development of a course consisting of aspects of attitude, general skills, special skills and knowledge.

3. **Program Objectives (PO)** are abilities that are specifically described from the PLO assigned to a course, and are specific to the study material or learning materials for that course.
4. **Subject Sub-PO (Sub-PO)** is a capability that is specifically described from the PO that can be measured or observed and is the final ability that is planned at each learning stage, and is specific to the learning material of the course.
5. **Indicators for assessing** ability in the process and student learning outcomes are specific and measurable statements that identify the ability or performance of student learning outcomes accompanied by evidence.
6. **Assessment Criteria** are benchmarks used as a measure or measure of learning achievement in assessments based on predetermined indicators. Assessment criteria are guidelines for assessors so that assessments are consistent and unbiased. Criteria can be quantitative or qualitative.
7. **Forms of assessment:** test and non-test.
8. **Forms of learning:** Lecture, Response, Tutorial, Seminar or equivalent, Practicum, Studio Practice, Workshop Practice, Field Practice, Research, Community Service and/or other equivalent forms of learning.
9. **Learning Methods:** Small Group Discussion, Role-Play & Simulation, Discovery Learning, Self-Directed Learning, Cooperative Learning, Collaborative Learning, Contextual Learning, Project Based Learning, and other equivalent methods.
10. **Learning materials** are details or descriptions of study materials which can be presented in the form of several main points and sub-topics.
11. **The assessment weight** is the percentage of assessment of each sub-PO achievement whose size is proportional to the level of difficulty of achieving that sub-PO, and the total is 100%.
12. TM=Face to face, PT=Structured assignments, BM=Independent study.
