1	<p>First, this course forms students' schemata about basic anthropological concepts and basic sociological concepts. The formation of schemata begins with understanding the basic concepts of anthropology, including: material and formal objects of anthropology, branches of anthropology, methods, evolutionary theories, evolution and human variation, culture and its changes, cultural framework and mapping. After that, students are invited to understand the basic concepts of sociology, including: objects of study, social interaction, social values and norms, socialization and personality formation, social deviation and control, social structure, social stratification, social differentiation, social mobility, institutions. social, conflict and social integration, social change. Second, provide students with learning experiences applying basic concepts of sociology and basic concepts of anthropology as outlined in papers and presenting them using power point media. This course uses an expository and explanatory approach.</p>	<p>§ Explain the object of anthropological study § Explain the branches of anthropology § Explain anthropological methods</p>	<p>Criteria: The written test assessment contains subjective questions/descriptions consisting of 4 questions. Each question will be given a value of 0 - 25 based on the answer key. A score of 0 is given to each question that is not answered by the student, a score of 25 is given to answers that match the answer key.</p>	2 X 50			0%
2	<p>Master and apply basic concepts of anthropology and basic concepts of sociology to examine social and cultural problems</p>	<p>Explaining the theories of Evolution</p>		Behavioristic/Expository/Lecture 2 X 50			0%
3	<p>Master and apply basic concepts of anthropology and basic concepts of sociology to examine social and cultural problems</p>	<p>Explain human evolution and variation</p>		Behavioristic/Expository/Lecture 2 X 50			0%
4	<p>Master and apply basic concepts of anthropology and basic concepts of sociology to examine social and cultural problems</p>	<p>Explain culture and its changes</p>		Constructivist/Cooperative Learning Model/Discussion 2 X 50			0%
5	<p>Master and apply basic concepts of anthropology and basic concepts of sociology to examine social and cultural problems</p>	<p>Explaining the cultural framework and mapping</p>		Constructivist Approach/Cooperative Learning/Discussion 2 X 50			0%
6	<p>Master and apply basic concepts of anthropology and basic concepts of sociology to examine social and cultural problems</p>	<p>Explain the object of sociological study</p>		2 X 50			0%
7	<p>Master and apply basic concepts of anthropology and basic concepts of sociology to examine social and cultural problems</p>	<p>Explain social interactions</p>		Behavioristic/Expository/Lecture Approach 2 X 50			0%

8	Master and apply basic concepts of anthropology and basic concepts of sociology to examine social and cultural problems	§ Explain social values and norms. Explain socialization and personality formation		Behavioristic/Expository/Lecture Approach 2 X 50			0%
9	Master and apply basic concepts of anthropology and basic concepts of sociology to examine social and cultural problems	Explain social deviation		Constructivist/Cooperative Learning Model/Discussion 2 X 50			0%

Notes

- Learning Outcomes of Study Program Graduates (PLO - Study Program)** are the abilities possessed by each Study Program graduate which are the internalization of attitudes, mastery of knowledge and skills according to the level of their study program obtained through the learning process.
- The PLO imposed on courses** are several learning outcomes of study program graduates (CPL-Study Program) which are used for the formation/development of a course consisting of aspects of attitude, general skills, special skills and knowledge.
- Program Objectives (PO)** are abilities that are specifically described from the PLO assigned to a course, and are specific to the study material or learning materials for that course.
- Subject Sub-PO (Sub-PO)** is a capability that is specifically described from the PO that can be measured or observed and is the final ability that is planned at each learning stage, and is specific to the learning material of the course.
- Indicators for assessing** ability in the process and student learning outcomes are specific and measurable statements that identify the ability or performance of student learning outcomes accompanied by evidence.
- Assessment Criteria** are benchmarks used as a measure or measure of learning achievement in assessments based on predetermined indicators. Assessment criteria are guidelines for assessors so that assessments are consistent and unbiased. Criteria can be quantitative or qualitative.
- Forms of assessment:** test and non-test.
- Forms of learning:** Lecture, Response, Tutorial, Seminar or equivalent, Practicum, Studio Practice, Workshop Practice, Field Practice, Research, Community Service and/or other equivalent forms of learning.
- Learning Methods:** Small Group Discussion, Role-Play & Simulation, Discovery Learning, Self-Directed Learning, Cooperative Learning, Collaborative Learning, Contextual Learning, Project Based Learning, and other equivalent methods.
- Learning materials** are details or descriptions of study materials which can be presented in the form of several main points and sub-topics.
- The assessment weight** is the percentage of assessment of each sub-PO achievement whose size is proportional to the level of difficulty of achieving that sub-PO, and the total is 100%.
- TM=Face to face, PT=Structured assignments, BM=Independent study.
