SEMESTER LEARNING PLAN

Courses	CODE	Course Family	Credit Weight			SEMESTER	Compilation Date										
Modern Control Systems	2020102201		T=2	P=0	ECTS=3.18	7	July 17, 2024										
AUTHORIZATION		SP Developer	Course Cluster Coordinator			Study Program Coordinator											
				Dr. Lusia Rakhmawati, S.T., M.T.											
Learning model	Project Based Learning																
Program Learning Outcomes (PLO)	PLO study program that is charged to the course																
	Program Objectives (PO)																
	PLO-PO Matrix																
		P.O															
	PO Matrix at the end of each learning stage (Sub-PO)																
	P.O	Week															
		1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16
Short Course Description	This course teaches about modern control engineering as a continuation of the basics of control systems, about the development of modern control engineering, making good modern control engineering applications in programming, future trends in modern control engineering																
References	Main :																
	1. Ogata . 2013. Modern Control Engineering . New Jersey: McGraw Hill																
	Supporters:																
Supporting lecturer	Endryansyah, S.T., M.T. Muhamad Syarifuddin Zuhrie, S.Pd., M.T.																
Week-	Final abilities of each learning stage (Sub-PO)	Evaluation		Help Learning, Learning methods, Student Assignments, [Estimated time]		Learning materials [References]	Assessment Weight (%)										
		Indicator	Criteria & Form	Offline (offline)	Online (online)												
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)										

1	Students are able to understand the scope of modern control systems and review the basics of control systems	<ol style="list-style-type: none"> 1.Explain the definition of a modern control system 2.Explain the history of modern control systems. 3.Explain the development and application of modern control systems 4.review the basics of control systems 	Criteria: Cognitive Assessment Attitude Assessment Social Skills Assessment	Model: Direct learning Method: Lecture, Question and Answer, Scientific Approach Discussion 2 X 50		0%
2	Students are able to understand the scope of modern control systems and review the basics of control systems	<ol style="list-style-type: none"> 1.Explain the definition of a modern control system 2.Explain the history of modern control systems. 3.Explain the development and application of modern control systems 4.review the basics of control systems 	Criteria: Cognitive Assessment Attitude Assessment Social Skills Assessment	Model: Direct learning Method: Lecture, Question and Answer, Scientific Approach Discussion 2 X 50		0%
3	Students are able to understand the scope of modern control systems and review the basics of control systems	<ol style="list-style-type: none"> 1.Explain the definition of a modern control system 2.Explain the history of modern control systems. 3.Explain the development and application of modern control systems 4.review the basics of control systems 	Criteria: Cognitive Assessment Attitude Assessment Social Skills Assessment	Model: Direct learning Method: Lecture, Question and Answer, Scientific Approach Discussion 2 X 50		0%

4	Students are able to understand the scope of modern control systems and review the basics of control systems	<ol style="list-style-type: none"> 1.Explain the definition of a modern control system 2.Explain the history of modern control systems. 3.Explain the development and application of modern control systems 4.review the basics of control systems 	Criteria: Cognitive Assessment Attitude Assessment Social Skills Assessment	Model: Direct learning Method: Lecture, Question and Answer, Scientific Approach Discussion 2 X 50		0%
5	Students are able to understand the scope of modern control systems and review the basics of control systems	<ol style="list-style-type: none"> 1.Explain the definition of a modern control system 2.Explain the history of modern control systems. 3.Explain the development and application of modern control systems 4.review the basics of control systems 	Criteria: Cognitive Assessment Attitude Assessment Social Skills Assessment	Model: Direct learning Method: Lecture, Question and Answer, Scientific Approach Discussion 2 X 50		0%

Notes

1. **Learning Outcomes of Study Program Graduates (PLO - Study Program)** are the abilities possessed by each Study Program graduate which are the internalization of attitudes, mastery of knowledge and skills according to the level of their study program obtained through the learning process.
2. **The PLO imposed on courses** are several learning outcomes of study program graduates (CPL-Study Program) which are used for the formation/development of a course consisting of aspects of attitude, general skills, special skills and knowledge.
3. **Program Objectives (PO)** are abilities that are specifically described from the PLO assigned to a course, and are specific to the study material or learning materials for that course.
4. **Subject Sub-PO (Sub-PO)** is a capability that is specifically described from the PO that can be measured or observed and is the final ability that is planned at each learning stage, and is specific to the learning material of the course.
5. **Indicators for assessing** ability in the process and student learning outcomes are specific and measurable statements that identify the ability or performance of student learning outcomes accompanied by evidence.
6. **Assessment Criteria** are benchmarks used as a measure or measure of learning achievement in assessments based on predetermined indicators. Assessment criteria are guidelines for assessors so that assessments are consistent and unbiased. Criteria can be quantitative or qualitative.
7. **Forms of assessment:** test and non-test.
8. **Forms of learning:** Lecture, Response, Tutorial, Seminar or equivalent, Practicum, Studio Practice, Workshop Practice, Field Practice, Research, Community Service and/or other equivalent forms of learning.
9. **Learning Methods:** Small Group Discussion, Role-Play & Simulation, Discovery Learning, Self-Directed Learning, Cooperative Learning, Collaborative Learning, Contextual Learning, Project Based Learning, and other equivalent methods.
10. **Learning materials** are details or descriptions of study materials which can be presented in the form of several main points and sub-topics.
11. **The assessment weight** is the percentage of assessment of each sub-PO achievement whose size is proportional to the level of difficulty of achieving that sub-PO, and the total is 100%.
12. TM=Face to face, PT=Structured assignments, BM=Independent study.
