	T	,	Г	Г	T	1
1	Understand the issues related to textbooks	Can explain the influence of textbooks Can explain the role of textbooks in education Can explain the views of educational experts on textbooks Can explain the current conditions of textbook use in the world of education	Criteria: Scoring	Presentation / Discussion 3 X 50		0%
2	Understanding Assessment Standards in the 2013 Curriculum Understanding the Concept of Class Assessment and Assessment of Attitude Competency Achievement	- Can explain Class Assessment - Can explain Characteristics of Class Assessment - Can explain Class Assessment Techniques - Can explain Attitude Competency Achievement Assessment - Can explain Knowledge Competency Achievement Assessment - Can explain Knowledge Competency Achievement Assessment - Can explain Curriculum Can explain the changes in the 2013 Curriculum - Can explain the advantages and disadvantages of K 13	Criteria: 1.The assessment is carried out on the following aspects: 2.1. Participation during lectures and presence of activities is carried out through observations, observations (weight 2) 3.2. Assignment grades, weekly exam grades and presentations are averaged to form a weighted assignment grade (2) 4.3. Subsummative test (UTS) is carried out once accessing relevant indicators through a written exam is given a weight (3) 5.4. Summative tests (UAS) are carried out to measure several indicators that have been selected proportionally, given weights (3) 6.The final NA is (participation value x2) (assignment value x 2) UAS value (3) divided by 10	Presentation, Discussion 3 X 50		0%

3	Understanding the Development of the 2013 Curriculum Understanding the Development of Teaching Materials in the context of implementing the 2013 Curriculum	- Can explain the concept of K13 development - Can explain the changes in the 2013 Curriculum - Can explain the advantages and disadvantages of K13 - Can explain the development of teaching materials - Can explain the steps for preparing teaching materials	Criteria: 1. The assessment is carried out on the following aspects: 2.1. Participation during lectures and presence of activities is carried out through observations, observations (weight 2) 3.2. Assignment grades, weekly exam grades and presentations are averaged to form a weighted assignment grade (2) 4.3. Subsummative test (UTS) is carried out once accessing relevant indicators through a written exam is given a weight (3) 5.4. Summative tests (UAS) are carried out to measure several indicators that have been selected proportionally, given weights (3) 6. The final NA is (participation value x2) (assignment value x 3) (UTS value x 2) UAS value (3) divided by 10	Presentations and discussions and lectures 3 X 50		0%
4	Understanding the Local Content Curriculum	- Can explain the meaning of Local Content - Can explain what a Local Content curriculum is - Can explain	Criteria: 1.The assessment is carried out on the following aspects: 2.1. Participation during lectures and presence of activities is carried out through observations, observations (weight 2) 3.2. Assignment grades, weekly exam grades and presentations are averaged to form a weighted assignment grade (2) 4.3. Subsummative test (UTS) is carried out once accessing relevant indicators through a written exam is given a weight (3) 5.4. Summative tests (UAS) are carried out to measure several indicators that have been selected proportionally, given weights (3) 6.The final NA is (participation value x2) (assignment value x 2) (assignment value x 2) UAS value (3) divided by 10	Discussion, presentation, lecture, question and answer 3 X 50		0%

-	Lindor-ti d	C: 1 :	Outtout.	Lastina P		201
5	Understand the steps in writing a textbook	Can explain the analysis of the need for writing textbooks - Can compile a map of teaching materials for the purposes of writing textbooks according to the field of interest - Can prepare textbooks starting from the planning, implementation and consolidation stages according to the field of study of interest	Criteria: 1.The assessment is carried out on the following aspects: 2.1. Participation during lectures and presence of activities is carried out through observations, observations (weight 2) 3.2. Assignment grades, weekly exam grades and presentations are averaged to form a weighted assignment grade (2) 4.3. Subsummative test (UTS) is carried out once accessing relevant indicators through a written exam is given a weight (3) 5.4. Summative tests (UAS) are carried out to measure several indicators that have been selected proportionally, given weights (3) 6.The final NA is (participation value x2) (assignment value x 3) (UTS value x 2) UAS value (3) divided by 10	Lectures, discussions, presentations, questions and answers 3 X 50		0%
6	Understand the selection and use of textbooks	- Can explain the general basis for selecting and using textbooks - Can explain and apply the steps for selecting textbooks - Can explain and apply the steps for using textbooks	Criteria: 1.The assessment is carried out on the following aspects: 2.1. Participation during lectures and presence of activities is carried out through observations, observations (weight 2) 3.2. Assignment grades, weekly exam grades and presentations are averaged to form a weighted assignment grade (2) 4.3. Subsummative test (UTS) is carried out once accessing relevant indicators through a written exam is given a weight (3) 5.4. Summative tests (UAS) are carried out to measure several indicators that have been selected proportionally, given weights (3) 6.The final NA is (participation value x2) (assignment value x 3) (UTS value x 2) UAS value (3) divided by 10	Presentation, questions and answers 3 x 50		0%

exam grades and presentations are averaged to form a weighted assignment grade (2) 4.3. Subsummative test (UTS) is carried out once accessing relevant indicators through a written exam is given a weight (3) 5.4. Summative tests (UAS) are carried out to measure several indicators that have been selected	proportionally, given weights (3) 6.The final NA is (participation value x2)	7 Understanding textbook assessments	presentations are averaged to form a weighted assignment grade (2) 4.3. Subsummative test (UTS) is carried out once accessing relevant indicators through a written exam is given a weight (3) 5.4. Summative tests (UAS) are carried out to measure several indicators that have been selected proportionally, given weights (3) 6. The final NA is (participation	Presentation / Discussion 3 X 50

Notes

- Learning Outcomes of Study Program Graduates (PLO Study Program) are the abilities possessed by each Study Program
 graduate which are the internalization of attitudes, mastery of knowledge and skills according to the level of their study program
 obtained through the learning process.
- 2. The PLO imposed on courses are several learning outcomes of study program graduates (CPL-Study Program) which are used for the formation/development of a course consisting of aspects of attitude, general skills, special skills and knowledge.
- 3. **Program Objectives (PO)** are abilities that are specifically described from the PLO assigned to a course, and are specific to the study material or learning materials for that course.
- 4. Subject Sub-PO (Sub-PO) is a capability that is specifically described from the PO that can be measured or observed and is the final ability that is planned at each learning stage, and is specific to the learning material of the course.
- 5. **Indicators for assessing** ability in the process and student learning outcomes are specific and measurable statements that identify the ability or performance of student learning outcomes accompanied by evidence.
- 6. Assessment Criteria are benchmarks used as a measure or measure of learning achievement in assessments based on predetermined indicators. Assessment criteria are guidelines for assessors so that assessments are consistent and unbiased. Criteria can be quantitative or qualitative.
- 7. Forms of assessment: test and non-test.
- 8. Forms of learning: Lecture, Response, Tutorial, Seminar or equivalent, Practicum, Studio Practice, Workshop Practice, Field Practice, Research, Community Service and/or other equivalent forms of learning.
- 9. Learning Methods: Small Group Discussion, Role-Play & Simulation, Discovery Learning, Self-Directed Learning, Cooperative Learning, Collaborative Learning, Contextual Learning, Project Based Learning, and other equivalent methods.
- 10. Learning materials are details or descriptions of study materials which can be presented in the form of several main points and sub-topics.
- 11. The assessment weight is the percentage of assessment of each sub-PO achievement whose size is proportional to the level of difficulty of achieving that sub-PO, and the total is 100%.
- 12. TM=Face to face, PT=Structured assignments, BM=Independent study.
