Program Learning Outcomes (PLO)	PLO study program that is charged to the course																																																																																																				
	PLO-14 Able to document, store, secure and recover data to ensure validity and prevent plagiarism, as well as compiling descriptions of scientific study results in the form of a thesis, and uploading them on the Unesa page																																																																																																				
	Program Objectives (PO)																																																																																																				
	PO - 1 Mastering scientific knowledge about the science of language sounds (phonology)																																																																																																				
	PO - 2 Mastering the basics of phonological research methods																																																																																																				
	PO - 3 Mastering techniques for applying phonological concepts to increase understanding of Indonesian identity																																																																																																				
	PO - 4 Mastering the basics of knowledge to be creative in the field of phonology

Short Course Description | Discussion of theoretical and applicable concepts of Indonesian language sound system which includes the production of language sounds (phones) and the arrangement of phonemes as a basis for language teaching and Indonesian language skills as well as language research through lecture activities, consolidation of language sound system theory, practical case analysis of language sound system, and presentations to produce various scientific writings about the sound systems of Indonesian and regional languages using descriptive and generative methods which are presented in class discussions and scientific activities in the department

14	Understand and identify diphthong sounds	Explaining the process by which diphthong sounds occur. Classifying diphthong sounds. Describing diphthong sounds in the cardinal vowel chart.	<p>Criteria:</p> <p>1.3: determination of the sound process [k] and correct explanation</p> <p>2.2: determination of the sound process [k] is incorrect, explanation is correct.</p> <p>3.1: determination of the sound process [k] correct, explanation incorrect.</p> <p>4.0: none of them are correct</p> <p>Form of Assessment : Participatory Activities</p>	questions and answers, discussions, assignments 4 X 50		<p>Material: diphthong sounds</p> <p>Reference: <i>Chaer, Abdul. 2000. Indonesian Phonology. Rineka Cipta</i></p>	5%

15	Understand and identify cluster sounds	Explaining the process by which cluster sounds occur. Classifying cluster sounds. Identifying cluster sounds and not based on their phonotactics	Criteria: 1.3: determination of the sound process [k] and correct explanation 2.2: determination of the sound process [k] is incorrect, explanation is correct. 3.1: determination of the sound process [k] correct, explanation incorrect. 4.0: none of them are correct Form of Assessment : Participatory Activities	questions and answers, discussions, presentations, assignments 4 X 50		Material: cluster sounds References: <i>Chaer, Abdul. 2000. Indonesian Phonology. Rineka Cipta</i>	5%
16	Understand and identify cluster sounds	Explaining the process by which cluster sounds occur. Classifying cluster sounds. Identifying cluster sounds and not based on their phonotactics	Criteria: 1.3: determination of the sound process [k] and correct explanation 2.2: determination of the sound process [k] is incorrect, explanation is correct. 3.1: determination of the sound process [k] correct, explanation incorrect. 4.0: none of them are correct Form of Assessment : Portfolio Assessment, Test	questions and answers, discussions, presentations, assignments 4 X 50			15%

Evaluation Percentage Recap: Case Study

No	Evaluation	Percentage
1.	Participatory Activities	61.67%
2.	Portfolio Assessment	9.17%
3.	Practice / Performance	4.17%
4.	Test	25%
		100%

Notes

- Learning Outcomes of Study Program Graduates (PLO - Study Program)** are the abilities possessed by each Study Program graduate which are the internalization of attitudes, mastery of knowledge and skills according to the level of their study program obtained through the learning process.
- The PLO imposed on courses** are several learning outcomes of study program graduates (CPL-Study Program) which are used for the formation/development of a course consisting of aspects of attitude, general skills, special skills and knowledge.
- Program Objectives (PO)** are abilities that are specifically described from the PLO assigned to a course, and are specific to the study material or learning materials for that course.
- Subject Sub-PO (Sub-PO)** is a capability that is specifically described from the PO that can be measured or observed and is the final ability that is planned at each learning stage, and is specific to the learning material of the course.
- Indicators for assessing** abilities in the process and student learning outcomes are specific and measurable statements that identify the abilities or performance of student learning outcomes accompanied by evidence.
- Assessment Criteria** are benchmarks used as a measure or measure of learning achievement in assessments based on predetermined indicators. Assessment criteria are guidelines for assessors so that assessments are consistent and unbiased. Criteria can be quantitative or qualitative.
- Forms of assessment:** test and non-test.
- Forms of learning:** Lecture, Response, Tutorial, Seminar or equivalent, Practicum, Studio Practice, Workshop Practice, Field Practice, Research, Community Service and/or other equivalent forms of learning.
- Learning Methods:** Small Group Discussion, Role-Play & Simulation, Discovery Learning, Self-Directed Learning, Cooperative Learning, Collaborative Learning, Contextual Learning, Project Based Learning, and other equivalent methods.
- Learning materials** are details or descriptions of study materials which can be presented in the form of several main points and sub-topics.
- The assessment weight** is the percentage of assessment of each sub-PO achievement whose size is proportional to the level of difficulty of achieving that sub-PO, and the total is 100%.
- TM=Face to face, PT=Structured assignments, BM=Independent study.
