

## Universitas Negeri Surabaya Faculty of Mathematics and Natural Sciences Bachelor of Mathematics Education Study Program

Document Code

## SEMESTER LEARNING PLAN

Courses			CODE		Course Family		Credit Weight		SEMESTER	Compilation Date			
Transformation Geometry			842020	02004			T=2	P=0	ECTS=3.18	6	July 17, 2024		
AUTHORIZATION			SP De	SP Developer		Course Cluster Coordinator			r	Study Program Coordinator			
										Dr. Endah Budi Rahaju, M.Pd.			
Learning model		Case Studies											
Program Learning		PLO study program that is charged to the course											
Outcom		Program Objectives (PO)											
(PLO)	PLC	PLO-PO Matrix											
		P.O											
	PO	PO Matrix at the end of each learning stage (Sub-PO)											
		P.O Week											
				1 2 3 4	4 5 6	6 7	8	9	10 11 1	2 13 14	15 16		
Short Course Descript	refle	This course is based on geometric study material and analysis related to the concepts of transformation, reflection, half rotation, shear, rotation, shear reflection, similarity, dilatation, displacement and strain, and inversion.											
Referen	ces Mai	Main :											
		<ol> <li>Utama : [1] Budiarto, M.T. 2015. Geometri Transformasi . Surabaya: UNESA University Press Anggota IKAPI Pendukung : [2] Eccles, Frank R. 1971. An Introduction to Transformational Geometry . California: Addison Wesley Publishing Company [3] Martin, George F. 1980. Transformational Geometry an Introduction to Symmetry . New York: Springer- Verlag</li> </ol>

Notes

- Learning Outcomes of Study Program Graduates (PLO Study Program) are the abilities possessed by each Study Program graduate which are the internalization of attitudes, mastery of knowledge and skills according to the level of their study program obtained through the learning process.
- 2. The PLO imposed on courses are several learning outcomes of study program graduates (CPL-Study Program) which are used for the formation/development of a course consisting of aspects of attitude, general skills, special skills and knowledge.
- 3. **Program Objectives (PO)** are abilities that are specifically described from the PLO assigned to a course, and are specific to the study material or learning materials for that course.
- 4. **Subject Sub-PO (Sub-PO)** is a capability that is specifically described from the PO that can be measured or observed and is the final ability that is planned at each learning stage, and is specific to the learning material of the course.
- 5. **Indicators for assessing** ability in the process and student learning outcomes are specific and measurable statements that identify the ability or performance of student learning outcomes accompanied by evidence.
- 6. Assessment Criteria are benchmarks used as a measure or measure of learning achievement in assessments based on predetermined indicators. Assessment criteria are guidelines for assessors so that assessments are consistent and unbiased. Criteria can be quantitative or qualitative.
- 7. Forms of assessment: test and non-test.
- 8. Forms of learning: Lecture, Response, Tutorial, Seminar or equivalent, Practicum, Studio Practice, Workshop Practice, Field Practice, Research, Community Service and/or other equivalent forms of learning.
- 9. Learning Methods: Small Group Discussion, Role-Play & Simulation, Discovery Learning, Self-Directed Learning, Cooperative Learning, Collaborative Learning, Contextual Learning, Project Based Learning, and other equivalent methods.
- 10. Learning materials are details or descriptions of study materials which can be presented in the form of several main points and sub-topics.
- 11. The assessment weight is the percentage of assessment of each sub-PO achievement whose size is proportional to the level of difficulty of achieving that sub-PO, and the total is 100%.
- 12. TM=Face to face, PT=Structured assignments, BM=Independent study.
