			Agus Suwahyono, S.Sn., M.Pd.																																																																																																									
Learning model	Case Studies																																																																																																														
Program Learning Outcomes (PLO)	PLO study program that is charged to the course																																																																																																														
	PLO-5	Able to apply musical principles and theories through designing and implementing musical activities																																																																																																													
	PLO-12	Master the principles and theory of music through designing and implementing musical activities																																																																																																													
	PLO-27	Demonstrate a responsible attitude towards work in their field of expertise independently																																																																																																													
	PLO-29	Able to apply logical, critical, systematic and innovative thinking in the context of developing or implementing science and technology that pays attention to and applies humanities values in accordance with their field of expertise																																																																																																													
	Program Objectives (PO)																																																																																																														
	PO - 1	Able to be responsible for applying an understanding of vocal techniques (singing) including breathing, phrasing, intonation, resonance, articulation, interpretation and expression using intermediate level etude material and Indonesian Classical Seriosa songs independently.																																																																																																													
	PO - 2	Able to master the concepts, principles and theories of vocal technique through designing and implementing musical activities.																																																																																																													
	PO - 3	Able to present the results of the training process and presentation of Intermediate Level Basic Instruments based on analysis by utilizing various sources, science and technology-based media contextually.																																																																																																													
	PO - 4	Able to prepare reports on the results of the training process and presentation of Intermediate Level Basic Instruments.

Evaluation Percentage Recap: Case Study

No	Evaluation	Percentage
1.	Participatory Activities	8%
2.	Project Results Assessment / Product Assessment	54%
3.	Practice / Performance	34%
4.	Test	4%
		100%

Notes

- 1. Learning Outcomes of Study Program Graduates (PLO - Study Program)** are the abilities possessed by each Study Program graduate which are the internalization of attitudes, mastery of knowledge and skills according to the level of their study program obtained through the learning process.
- 2. The PLO imposed on courses** are several learning outcomes of study program graduates (CPL-Study Program) which are used for the formation/development of a course consisting of aspects of attitude, general skills, special skills and knowledge.
- 3. Program Objectives (PO)** are abilities that are specifically described from the PLO assigned to a course, and are specific to the study material or learning materials for that course.
- 4. Subject Sub-PO (Sub-PO)** is a capability that is specifically described from the PO that can be measured or observed and is the final ability that is planned at each learning stage, and is specific to the learning material of the course.
- 5. Indicators for assessing** abilities in the process and student learning outcomes are specific and measurable statements that identify the abilities or performance of student learning outcomes accompanied by evidence.
- 6. Assessment Criteria** are benchmarks used as a measure or measure of learning achievement in assessments based on predetermined indicators. Assessment criteria are guidelines for assessors so that assessments are consistent and unbiased.

Criteria can be quantitative or qualitative.

7. **Forms of assessment:** test and non-test.
8. **Forms of learning:** Lecture, Response, Tutorial, Seminar or equivalent, Practicum, Studio Practice, Workshop Practice, Field Practice, Research, Community Service and/or other equivalent forms of learning.
9. **Learning Methods:** Small Group Discussion, Role-Play & Simulation, Discovery Learning, Self-Directed Learning, Cooperative Learning, Collaborative Learning, Contextual Learning, Project Based Learning, and other equivalent methods.
10. **Learning materials** are details or descriptions of study materials which can be presented in the form of several main points and sub-topics.
11. **The assessment weight** is the percentage of assessment of each sub-PO achievement whose size is proportional to the level of difficulty of achieving that sub-PO, and the total is 100%.
12. TM=Face to face, PT=Structured assignments, BM=Independent study.
